PROFESSIONAL SUMMARY

Full-stack developer proficient in Java, specializing in the Spring Framework, and experienced in SQL databases, including MySQL and PostgreSQL. I conduct comprehensive testing of applications, using Jasmine and Karma for Angular testing to ensure the quality of developed software. My expertise extends to web development with HTML, CSS, Node.js, TypeScript, and Angular, along with experience in JavaScript and React. I practice agile methodologies, such as SCRUM and Kanban, and demonstrate skills in effective communication, problem-solving, and continuous learning. I am recognized for effective collaboration, adaptability in team environments, and the ability to thrive in dynamic settings. I have proficiency in TDD, CI/CD practices, and experience with Microsoft Azure, solidifying my skill set in full-stack development.

EDUCATION

Full-Stack Developer Java | Completion: 08/2023

Institution: Generation Brasil.

Technical Skills: HTML, CSS, JavaScript, Java, React, AngularJS, Spring Boot, MySQL, MongoDB, Java APIs (MVC and REST), Git. Interpersonal Skills: Effective communication, problem-solving, adaptability, attention to detail, teamwork.

JavaScript Algorithms and Data Structures | Completion: 03/2023

Institution: freeCodeCamp.

I have extensive knowledge of JavaScript, including variables, arrays, objects, loops, and functions. I develop interactive web pages, manipulate strings, perform complex mathematical calculations, and apply OOP and FP concepts. I organize code for readability and can tackle programming challenges, contributing efficiently to web projects.

Bachelor's Degree in Visual Arts | Completion: 12/2018

Institution: Universidade Estadual Paulista Júlio de Mesquita Filho.

I am a technical and creative individual with solid skills in user-centered design and project management. Adaptable to new technologies, I collaborate effectively in teams. Proficient in digital tools like Procreate, Photoshop, and Figma.

PROFESSIONAL EXPERIENCE

IBM

Junior Software Developer | 08/2023 (start) – Present

- Developed and maintained applications using TypeScript and Angular.
- Seamlessly integrated Microsoft Azure services into the development workflow.
- Collaborated closely with cross-functional teams, ensuring project alignment and successful delivery, practicing agile methodologies, including SCRUM and Kanban.
- Demonstrated strong problem-solving skills to address complex challenges.
- Adapted swiftly to dynamic development environments, ensuring project agility.
- Committed to continuous learning, incorporating emerging technologies and methodologies into projects, with a specific focus on Test-Driven Development (TDD) and Continuous Integration/Continuous Deployment (CI/CD) practices in an Angular and TypeScript environment.

Elise Marie Ink

Freelance Artist | 01/2018 (start) – Present

- Freelance artist with over 6 years of experience in creatively solving problems.
- Aesthetic sensitivity and effective communication skills.
- Meticulous attention to detail and pursuit of perfection in captivating projects.
- Collaboration with clients from various sectors, aligning projects with their visions.
- Enhanced interpersonal skills, promoting collaboration in multidisciplinary teams.
- Discipline, creativity, and adaptability as a freelancer, managing multiple projects simultaneously.
- Ability to master new technologies and stay updated.
